Burndown Chart

A **Burndown Chart** shows how much work is left in a sprint and how quickly the team is completing tasks.
It helps track progress and ensures the team stays on schedule.

In our project:

- The burndown chart will show a **steady drop** in story points each day.
- If the team finishes early, the line goes below the expected curve.
- If the team lags behind, the line stays above the expected curve.
